

Map of Italy showing the geographical distribution of COVID-19 variants. The map is color-coded by region: Alpha (red), Beta (orange), Gamma (yellow), Delta (green), Mu (blue), and others (black). Five pie charts are overlaid on the map, representing the relative proportions of these variants in different regions. The pie charts show varying proportions of Delta, Mu, and others, with Alpha and Beta being very small components.

Pie area represents number of cases
